Application No. A.07-06-031

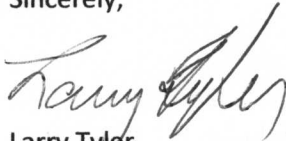

Gentlemen,

I attended the September 10, 2007 Scoping Meeting in Palmdale as a representative of the Leona Valley Town Council. I thank you for the opportunity to learn more about Segments 4 through 11 of the project contained in the above application. My comments and thoughts are as follows:

Of the eight (8) segments, only Segment 5 currently is of concern to our community. A portion of that eighteen mile segment is proposed to run along an existing right-of-way to the east of Leona Valley. We are concerned, of course, that the alignment may change. Any Alternate Route that moves Segment 5 west of the Proposed Route will cause concern, comments and possibly other action by our community.

Because the current right-of-way is not within 350 feet of Leona Valley, we did not receive mail notification of the project, we will not be notified of any changes to the PROPOSED ROUTE, or other data as it becomes available. We must be included in the SERVICE LIST for notification on this or other segments proposed by this application, or future applications. If this request is not sufficient to get us included on the SERVICE LIST please let me know what must be done to become included.

Sincerely,

Larry Tyler
Town Councilman
